

# FINAL REMINDER

As we are nearing the end of our 2019 Annual Fund Drive, we send this as a friendly reminder that to date we have not received your ever important donation. Fire and Medical Emergencies have been steadily rising since the beginning of this campaign. Despite the increased demands on our volunteers, we are confident that, with your help, we will achieve our goal of handling all emergencies quickly and efficiently. If you have recently sent in your donation, we thank you for your support and ask that you disregard this notice.
